

POSTER SESSIONS

ADMISSIONS AT BRYN MAWR COLLEGE

PRESENTER: MARISSA TURCHI, DIRECTOR OF UNDERGRADUATE ADMISSIONS

Connect with a representative from the Admissions Office to learn more about Bryn Mawr's recruitment.

CREATING DIGITAL SKILL-BUILDING STUDENT INTERNSHIP OPPORTUNITIES IN EDUCATIONAL TECHNOLOGY SERVICES

PRESENTER: PALAK BHANDARI, EDUCATIONAL TECHNOLOGIST

Within Library and Information Technology Services, Educational Technology Services' student internships are examples of how colleges and departments might think beyond the classroom and capitalize on student interest in emerging and educational technologies. This poster will also discuss how to further strategic educational goals while developing students' digital competencies through student-centric programming and internships.

DEVELOPING LILAC COMPETENCIES IN OUR STUDENT STAFF

PRESENTER: VIPPY YEE, ASSISTANT DIRECTOR OF VOLUNTEER PROGRAMS

We believe that on-campus jobs are ideal opportunities for professional development and will be highlighting the performance coaching sessions that we recently began using with many of our LILAC student staff. These sessions help us to prioritize our student employees' development of LILAC competencies and professional skills through their work with our center.

LILAC Competencies: Reflective Practice, Communication, Connection, Conceptual Thinking, Social Responsibility, Implementation, and Cultural Competency.

DALTON 300 • 12—1PM

LYNDA.COM: ONLINE LEARNING

PRESENTER: HELEN CHANG, EDUCATIONAL TECHNOLOGY SPECIALIST AND MOODLE ADMINISTRATOR

With lynda.com, you can learn and develop skills at your own pace whenever you choose. College staff have access to lynda.com, a robust and comprehensive online learning service featuring over 6,400 courses in Business, Technology, and Creative Skills taught by industry experts. Not convinced? Stop by my table to try it for yourself!

SECURITY EXPLOITS AND VULNERABILITIES

PRESENTER: AMY PEARLMAN, DIRECTOR OF CLIENT SERVICES AND IT PROCUREMENT

Equifax Breach. Wannacry. Spectre. Meltdown. Bitcoin mining. Data on the Darknet. IoT baby monitors being used to spy. There are some scary threats to your security and identity in the news these days. They have strange names and it's unclear what they might mean to you. Come ask about these and other threats, learn which you want to watch out for, as well as how to stay safe.

WHAT IS ON OUR NETWORK

PRESENTER: ANDREW CHIARELLO, SENIOR NETWORK ENGINEER

I'll be showing a selection of charts showing the number and types of devices that have been on our network over the last several years, and answering questions about the same.
